Re: Who benefits? Our families benefit.

Via: HeraldEd@MiamiHerald.com

Dear Editor:

The Herald's recent story, "Who benefits from Florida's sweeping bid to turn police into ICE agents? Big GOP donor," not only disrespects rule of law and thousands of immigrants that have come to this country legally, like my father and Mrs. Hansberger, but also countless of Americans who have lost their lives at the hands of people illegally in this country.

This is why we participated last month in "Victim's Day" in Tallahassee to honor lives forever lost. We have laws to protect and defend our citizens and provide safe communities where we live, work, and play.

Open borders and sanctuary cities are criminal-friendly policies that bolster and embolden illegal border crossers causing "lawlessness" and "chaos." So, "why" is the Florida leadership stepping-up to protect citizens? It's common sense - it's their job. The real question should be, "Why are we importing more crime?"

With over 109,000 illegal crossings in April, the drug cartels are pouring over the New Mexico border after its governor withdrew National Guard troops from border checkpoints out of spite for President Trump. Cartels target our citizens and leave destruction in their wake. On February 9 in Davenport, a previously deported illegal alien killed an unborn child in a drunk driving crash.

More Latinos are speaking up for lawfulness, common sense, and for safe communities in which to raise our families.

Sincerely,

Maria Espinoza
